T LEVEL INDUSTRIAL PLACEMENT

PROPOSAL

THE PROBLEM.

T Level Industry Placements

- T levels require 45 days of industry placement
- Failure to achieve this:
 - Negatively impacts QAR
 - Negatively impacts provider cashflow
- This element of the T level has represented a challenge for a variety of reasons.
- eVolve Your Future has held a DfE contract to broker placements between colleges and SME's in the Built Environment since June 2022
- DfE now withdrawing all brokerage support, passing the business engagement burden to FE
- DfE support ends 31 March 2024 - the need to act is immediate

OUR SOLUTION.

T Level Industrial Placement Partnership

- Proven results over the past 2 years
- Established team, immediate stand up
- In operation 51 weeks per year
- No need for additional FE headcount
- Coverage of all company sizes across all sectors
- FE can focus on curriculum and preparing learners for work experience
- Established team with deep experience in brokering placements
- Existing database of companies nationwide
- Deep experience and understanding of T Levels and their requirements
- National coverage
- FE can focus on matching students to interested employers

**FE STAFF CAN REMAIN
FOCUSSED ON WHAT THEY
DO BEST**

THANK YOU, AND WE LOOK FORWARD TO CONTINUING OUR PARTNERSHIP WITH YOU.

TESTIMONIALS

Our college partners say.....

“Since initial engagement, EYF have kept in regular contact, with check-in meetings every 2-3 weeks to update on IP numbers and progress of referrals.”

“EYF did a very good job of preparing the employers, so that when the college spoke to them, they understood what was expected of them and they fully understood the T Level”.

“EYF came to us at the right time, and we found them very easy to work with.”

Our SME partners say.....

“We were very pleased with the brokerage service provided by EYF and found the referral process to be very smooth and suggested that EYF couldn’t have done anymore to help the process, supporting with the interview process and helping to get IT set up etc.

“We would host a future placement if we could identify a college to work with and would also advocate this to other employers”.

“We were happy with the level of support provided by EYF and would take on another student in the future...as they understood construction was a difficult sector to get into without any skills”
